A. Statement

We, Cameroonians in the Diaspora and based in the USA, decided to join our brothers and sisters in Cameroon and across the globe in finding a peaceful solution to the current crisis in our country.

Our intention is to promote peace and encourage every Cameroonian to work for peace.

We believe that freedom, liberty and the pursuit of happiness are fundamental human rights for all but could only be achieved in a just and peaceful society.

We are not part of any existing political party, political movement or civil society organization.

We welcome all members of the Cameroonian society at home and abroad as well as friends and well-wishers of Cameroon.

We are open to all existing political organizations, lobby groups, members of the civil society, religious organizations, regional and tribal groups, and people with no specific affiliations.

The main objective of the initial Cameroon Peace Initiative Forum was to create a platform for dialogue, a forum for debate and exchange with the goal of bringing various factions of society to listen to one another, talk to each other and create the social bonds needed for a new beginning in

the motherland. Since June 2018, the CPI Forum has engaged and is continuing to foster passionate debates signaling the strong patriotic sentiment among us.

We are going to continue to reach out to every group and every member of the Cameroonian society and to friends of Cameroon.

We encourage every Cameroonian to extend a hand to all the Cameroonians they come across in joining this initiative. To contribute to the activities of CPI's workplan. To join and advocate for peace and sustainable development, to support peace building efforts and sustainable development initiatives.

We look forward to continuing discussions on social media, conference calls, Town Hall meetings as the process evolves and concrete activities on the ground to help alleviate poverty and reduce the impact of war and conflict on our people, and on our country.

We have drafted a document or memorandum that we have offered as a guide in the resolution of this conflict. It is time to move ahead in action.

B. Organization

How CPI does organize itself to achieve its primary objective, which is achieving sustainable peace in Cameroon.
